## **Launch of “Tornado” – CPU Cooler**

High Performance CPU cooler for Intel and AMD CPU with TDP up to 160W

HONG KONG, 11 April 2018

Thermal Solutions specialist *GELID Solutions* unveils its latest CPU cooler for Intel™ and AMD™ CPU. The *Tornado* is a product of *GELID Solutions* SILENT product line.

The *Tornado* comes with a 3D optimized lightweight heatsink that matches best-in-class cooling performance. It features a special copper base with soldered joints and 4 Nickel Plated power heat pipes in a unique constellation to substantially improve heat transfer within the heatsink elements. Compact size and high-compatibility design both ensure the *Tornado* perfectly fits most Tower and Desktop chassis available in the market. Full support of TDP 160W guarantees the best CPU performance in games and business applications.

An improved 120mm fan with the intelligent GELID PWM (Pulse Width Module) control compliments the heatsink. The new *Double Layer Fan Blade* technology is applied to distribute air flow efficiently at low speed, and the redesigned PWM IC eliminates any clicking noise. The intelligent GELID PWM curve constantly keeps the fan silent but accelerates speed whenever additional cooling is needed. Additionally, the award winning high-performance GC-Pro thermal compound is already included in the package. Enhanced mounting clips for multiple AMD™ CPU sockets AM2, AM2+, AM3, AM3+, FM1, FM2 and for Intel™ CPU LGA 775, 1366, 1155, 1156, 1150, 1151 sockets, as well as the back plate for AMD and Intel mainboards are all included too. The *Tornado* is even compatible to AMD™'s AM4 socket but the clip needs to be purchased separately.

The cooler is RoHS and WEEE conform and carries a 2 year warranty.

*“Tornado brings the features of top-notch CPU coolers to the mainstream. It delivers exceptional cooling performance and supports the latest CPU series of AMD and Intel with TDP up to 160W”*, said Gebhard Scherrer, Sales Director of GELID Solutions Ltd.

The *Tornado* is available now and has a MSRP of USD 27 or Euro 22
